VOLUME XXXIII.

O. A. KNEELAND.

O. A. Kneeland is one of the best known hotel men in this vicinity. He has been landlord of the Summit Spring House, Harrison; the Sebago House, Sebago; the Beal's Hotel, Norway; The Oxford, Fryeburg; Crystal Spring House, Harrison. He is now the proprietor of the Hallowell House, Hallowell. We print this out through the courtesy of the Industrial Journal.

Military Drill and Ball.

About fifty invitations have been sent out to the Field, Staff and Line officers of the First Reg't., N. G. S. M., and also to some of the Governor's Military Staff to attend this event, so it is an assured fact that it will be an unusually brilliant affair.

A body of well known young ladies of Norway in red white and blue uniforms will serve refreshments, the same young ladies, in fact, who gave such a successful drill in 1898. This will be one of the features of the evening's program. Another feature will be the drill by Co. C, of the same regiment, of Auburn. A fine order of dances has been arranged and etc. This barely pays the expenses with the features of the program. Another feature will be the drill by Co. C, of the same regiment, of Auburn. A fine order of dances has been arranged and etc. This barely pays the expenses with the features of the program.

Arrangements have been made for half-fare on the Grand Trunk Railway, and it is expected to have a large and select party from the neighboring cities and towns to join with us in making this a most pleasurable and memorable affair. It is also hoped the ball will be a financial success, as the entire funds of Company D were used in '98 to send needed supplies to the men while in the South, and left the treasury as the traditional "Mother Hubbard's cupboard."

The only fund that has since been raised was a collection taken of \$1 each from the men who go to muster, bringing about \$35 yearly into the treasury to pay for the care of the armory, lighting, etc. This barely pays the expenses with the features of the program. Another feature will be the drill by Co. C, of the same regiment, of Auburn. A fine order of dances has been arranged and etc. This barely pays the expenses with the features of the program.

Company D has a splendid reputation throughout the State in deportment, efficiency in drill and marksmanship, and is the pride of the county. Speaking of marksmanship reminds us that Company D's rifle team recently won first prize at the regimental shoot in Augusta.

Now, everyone, turn out and enjoy yourselves on the night of the 18th and incidentally give the boys a big lift from their present financial straits to which, through no fault of their own, they have fallen. You are assured a first-class good time and the fact is emphasized that everything of an objectionable nature will be refused admittance to the hall.

Cars will leave for South Paris until 3 a. m.

The "Pennesseewassee" is being thoroughly overhauled, new decks and seats built and the paint painted, and caulked.

Rev. E. S. Cotton, pastor of the local Baptist church and Rev. A. R. Crane of the Hallowell Baptist church will exchange pulpits the coming Sunday.

Oscar Needham left Monday for Camp Medford, Stoneham, to join Mell Sampson and several others, who are waiting for the ice to go out to start the season's fishing.

F. W. Sanborn returned, Tuesday, from a visit to his parents, Mr. and Mrs. John Sanborn, at Meredith, N. H., and his sister, Mrs. Charles E. Osgood, at Lowell, Mass.

F. H. Torrey has leased the store in the Robert Noyes block, formerly occupied by W. C. McCardle, and is open as an ice cream and lunch room. It will be opened Saturday.

W. W. Twombly, who cares for the traps that visit Norway, says that March gave him more guests than any month in the year. One night the look-up accommodated seven.

Rev. B. S. Rideout of this place will lecture before the Oxford W. R. C. at the Methodist church in that town, Wednesday evening, April 10th. Subject of lecture, "Home-Making."

Emma S. McCrellis entertained a party of fifteen young friends, last Saturday evening, the occasion being her 17th birthday. A very pleasant evening was enjoyed and the party broke up at a late hour.

The funeral of Mrs. Harriet F. Upton, Sunday afternoon, was attended by many of the village people. Mrs. Upton had lived in Norway for years and had a large acquaintance and was highly respected.

Mrs. V. W. Hills will have her millinery opening, Friday and Saturday. Mrs. Hills has made many of her hats and we are assured the work that has been put into them will be well worth looking at.

W. B. Bartlett of this town and Arthur Record of Oxford visited Nason's camp at Kittle Cove, Sebago Lake, the first of the week. Mr. Bartlett caught two salmon, the largest weighing ten pounds, which made him high line up to date at that camp. Wednesday this salmon was served for dinner at Wednesday House. Mr. Bartlett left, Wednesday afternoon, for East Stoneham where he is to fish a few days.

Joseph Hinman Jewett

Died Friday, of consumption, aged about 25 years. He had been ill for some time with the dread disease and had been in bad health ever since he went to war with Company D in '98.

Mr. Jewett was born in North Waterford, Feb. 14, 1877, the son of Stephen P. and Ella L. (Hinman) Jewett. When he was but a baby the family removed to Waltham, Mass., and there he was educated and lived until 1899 when they came back to Maine and settled here in Norway.

In June, 1901, he married Agnes G. Russell of Norway, who, with his mother, Mrs. Horace Cole, also of this town, two brothers, Roland C. Jewett of Waltham, Mass., and Stephen B. Jewett of Norway; and three sisters, Mrs. Wilbur F. Decker of North Norway and Mrs. S. Jewett, trained nurse of a Boston hospital, survive him.

Mr. Jewett was always interested in military affairs, as were his ancestors before him, and as soon as he was old enough joined the local militia.

When Company D started for the front in '98 he was among them and it was then said he was one of the healthiest and most efficient soldiers in the company. The company never went to the front, and Mr. Jewett said that was the only thing he ever regretted in life, that he could not have fought for his country.

While at Chippewa he was taken very ill with fever and with a fellow soldier, Arthur A. Jackson of the Norway company, who took care of him, he came home. Many will remember his home coming, sick and weak and unable to walk alone.

Since that time he grew slightly better and was able to do a little work, but has been in very delicate health. A few weeks since he took his bed and for some time had been unable to sit up.

The services were held at the Congregational church, Sunday afternoon in charge of Norway Lodge, No. 16, F. O. E., of which he was a member. The Norway camp of Spanish-American War Veterans was also present to honor their departed comrade.

The services were very impressive and were conducted by Rev. B. S. Rideout. As the funeral cortege passed out of the cemetery gates the bugler of Company D who had gone to Chippewa in 1898 with him, played "Taps."

In honoring this young man they honored a long list of his ancestors, from those who fought in the French and Indian wars and the Revolution to those who fought to keep the country a united land in '61.

The flowers were numerous and beautiful. A few are as follows:

Wreath—Miss F. Jewett.
Flowers—Mrs. James Pledge.
Cala lilies—Ladies' Veranda Club.
Roses—Russell.
Pinks—Mrs. Joseph Heath.
Pinks—Frank R. Taylor.
Roses—Mildred Conway.
Cattaroses—Ella Black.
Pinks—Mrs. John Hayes.
Cattaroses—Mrs. Cora Cordwell.
Lilies—Mrs. John Hayes.
Cattaroses—Mrs. L. L. Bartlett.
Cattaroses—Mrs. Hannah Morse.
Cattaroses—Mrs. Nina Pike.
Cattaroses—Mrs. Anna Heath.

Albion A. Swan, who has been working for the Portland Railroad Co., and lived in Westbrook, has moved to Portland, where he has accepted a position with J. J. Frye, dealer in agricultural implements.

Mrs. M. H. Carroll and daughter Helen of Lancaster, N. H., are stopping at her mother's, Mrs. Emma Bickford's, for a few weeks. Mrs. Bickford is in Rumford Falls on account of the sickness of her son, Ross Bickford, who is seriously ill with rheumatic fever.

While the shoe factories are doing a good business, we would not advise men with just money enough to get here to come with the idea they would surely get work, and if they do not, be obliged to spend a night in "the look-up" and tramp out of town. It would be better to write a letter or telephone to the factories before coming.

One of our game wardens was slightly "taken in," the other day. A young man purchased a partridge of J. Waldo Nash. The young man had a shotgun and dog with him when he bought it and started down Main street for his home, and had presented them to the Public Library. CURES ALL PAINS

One of the most popular medicines in New England to-day is Minard's Liniment. It's popular because it has never revealed a failure in relieving suffering. It's popular, too, because it is just the same to-day as it was years and years ago. A medicine that has been made just the same, that looks the same, smells the same, and works the same as it did nearly a century ago, is a remarkable medicine.

Minard's Liniment is a remarkable medicine in more ways than one. The cures it has effected have bordered on the miraculous, and the ease with which it cures pains is in itself remarkable. It is remarkable, too, that a medicine should live all these years, and increase its sales each year. Few other medicines have done it. This proves that its healing powers do exist, otherwise it could not have grown to a business of over a million bottles annually.

Minard's Liniment cures these troubles: rheumatism, diphtheria, grippe, sore throat, neuralgia, sciatica, sprain, lumbago, broucheitis, tooth, ear, and headach, burns, scalds, frost-bites, chilblains, chapped hands, old sores, boils, salt rheum, flesh wounds, caked breasts, erysipelas, sore nipples, bruise, external poisons, crump, or quins of the stomach, colic, asthma, swellings and tumors, piles, contraction of the muscles, numbness of the limbs, lame back, chest or side, bites of animals, internal pains, all other aches and pains, corns.

It is not simply a concoction to rub on your limbs and joints as other liniments are, but is as much an internal as an external remedy. I never saw anything equal it for rheumatism and neuralgia. Why, you can bathe your affected parts with it, and almost immediately the pain will cease. It soaks right through the skin and acts directly upon the inflammation. An old man in Boston, who tends one of the wharves, is all knotted and doubled up with rheumatism of many years' standing. He has been using Minard's Liniment for some time. He says: "There is nothing in the world like Minard's Liniment for me. If it wasn't for it I couldn't sleep. It keeps down the swelling and prevents the pain."

Genial—, I was quite disabled in walking for seven years, owing to a partial shock. I have daily used Minard's Liniment for some months, and am now able to walk about the house comfortably. I cannot dispense with its use. This is a volunteer tribute to its efficacy. What is your price per half dozen bottles? Do you forward free?

Yours truly, Mrs. S. F. PROCTOR,
2 Mt. Pleasant St., Plymouth, Mass.

Minard's Liniment is on sale at all druggists at twenty-five cents a bottle.

You have been told to "hitch your wagon to a star"—that Nature will assist you. That's all right. There are times, however, when you should assist nature, and the spring is one of these times.

TONIKO-TEA
CURES CONSTIPATION

Pains
Everywhere

In Neuralgia, there is needed a tonic. So says every medical authority. The physician prescribes powerful stimulants in Neuralgia to get quick results, but he knows that a well-chosen tonic treatment is the one indicated.

Powerful stimulants may relieve Neuralgia but only tonics cure it. Stimulants produce only time-being effects with the accompanying relaxation while tonics change morbid conditions and promote proper waste and are valuable because they build in a foundation.

TONIKO-TEA is a tonic; it is this kind of a tonic: it secures results by the proper promotion of right action in the stomach. It is here that the nerves center; that the blood receives its nourishment; that ill-health begins.

TONIKO-TEA cleanses, gently stimulates and makes healthy the stomach. It is a stomach corrector and enervator; its work once done is permanently done.

A day's treatment with TONIKO-TEA will cure your attack of Neuralgia and insure against its re-occurrence.

TONIKO REMEDY CO., Waterville, Maine.

Gentlemen,—For two years I was troubled with Neuralgia in my arms and could not sleep nights from pain. I have used four packages of your Toniko-Tea and have no pain and can sleep as well as ever.

GARDINER, MAINE, December 29, 1900.

Yours truly, Mrs. M. E. TAYLOR.

TONIKO REMEDY CO., Waterville, Maine.

Gentlemen,—I was advised to try your Toniko-Tea for Rheumatism, Indigestion and Constipation. I used one large package and it did me more good than one hundred dollars' worth of doctor's medicine. The doctors said I must give up housework and change climate; it was impossible for me to turn over in bed and I was in pain all the time. I am now able to do all of my housework and assist on the farm.

EASTON, OHIO, December 10, 1900.

If this testimonial is doubted I will send a sworn statement to anyone afflicted with the above complaints upon receipt of stamp.

PARIS HILL.

A Dislocated Shoulder.
George B. Shaw met with a serious accident Tuesday. While climbing on Mrs. T. H. Brown's buildings, he slipped in some way, falling to the ground, a distance of about twenty-five feet, dislocating his shoulder and bruising him badly. It was a narrow escape from what might have been a fatal accident as Mr. Shaw is a heavy man and there was nothing to break the fall.

HARRISON.

Her Ninetieth Birthday.
A few friends of Mrs. Mary Davis gathered at the home of Geo. H. Cummings to celebrate her 90th birthday. Dinner was served. There were birthday cakes, one bearing the dates of 1812-1902.

Mrs. Davis was born in Milton, N. H., in 1812, the daughter of John and Sally Meserve. She was married at the age of 22 to John Ferguson of Eliot, who died in 1836 leaving two children, George and Sarah.

Later she married Benjamin Davis of Michigan, who died in 1866. The year following she came to Harrison to spend her remaining days with her daughter, Mrs. Cummings.

She was a hard working woman in her younger days, and even at the age of 90 she does her own washing, ironing and mending, and her sewing would make some of the girls of these days blush.

She has lost the sight of one eye, otherwise is as active as one at 70, very interesting to talk with. Her father was about 90 when he died, and her grandmother lived to be 109.

Willie Burnham has returned from Waterford.

WEST FRYEBURG.

An Unusual Program.
The Stirling Literary Club met at the home of Mrs. S. O. Wiley on Tuesday, April 1st. There was a good attendance and the rather unusual program arranged by Mrs. E. E. Towle for the occasion was faithfully rendered. Each member had been requested to bring some specified article of food, "just enough for a taste for each" and each was also requested not to divulge to any other member her part. Something of interest concerning the production, as a story, or talk, or paper, with the recipe for making also. The result was a good success. The collation was much enjoyed as well as the household economics gleaned from the various selections read. One member related how "Dorcas Bunn's" Kentucky Cornmeal saved the settlement," and after the serious recital gravely listened to, the narrator apologized for drawing largely from fancy in consideration of the privileges of the day.

Another member whose cream cakes are already locally famous made provisions for an extra cake into which the toothsome cream did not go, but instead, a slip of paper with the suggestive date of April 1st. There was plenty of dainty food however and merited applause.

Mrs. Marion Chandler invited the club to meet at her home in Fryeburg Center, April 15th.

Charles Howe has been visiting relatives and friends in Stow for a few days.

Mrs. Demming, who is in poor health, is assisted in her home by Amy Hill of Green Hill, N. H.

School in No. 8 opens, Monday, April 14th, with Miss Adams of Fryeburg village as teacher.

Mrs. A. S. Farrington of the postoffice has a very attractive window of plants in profuse and beautiful bloom.

Several of the farmers have disposed of their surplus potatoes at seventy-five cents per bushel, during last week.

We hear that Mr. and Mrs. Howard Jones of the East Convent street intend removing to Bridgton and that Mrs. Towle will rent the house occupied by Mr. Jones and remove there with his family.

R. F. Webster, formerly of this section, has begun work on the foundation of a house to be built for his own occupancy in East Convent, N. H., near the guide board. Edward F. McIntire of the mill has the contract for its erection and it is intended to be ready to live in early summer.

Frank L. Eastman has secured the services of Will Sawyer, the coming season, this being his second term.

Mr. and Mrs. Chester Eastman of North Otham visited Mrs. E. S. parents, Mr. and Mrs. J. W. Towle, on Saturday last.

Mrs. Alice Walker spent last week at her son's, Bert Eastman's, at Toll Bridge, calling on old friends and acquaintances.

Chas. Stevens availed himself, after a winter's hard work, of a vacation of nearly a week among friends in South Hiram, last week.

Mr. and Mrs. H. B. Wood and son, who have been spending the winter among relatives in this section, returned to their home in North Dakota, Apr. 7.

Mrs. Nancy McKee, who has been caring for Mrs. Mary Pillsbury of North Fryeburg in a recent illness, has returned to her home in this place.

Hattie Giguere, who has been with Mrs. Sarah Stevens, the past winter, has returned to her home in South Hiram. Emily Pretty takes her place for a short time.

A poverty party was given at Union hall, April 6. Prizes were given to each sex for the poorest dressed person. Will Hall secured the first prize in the gentlemen's rank and Mrs. Alice Towle in the ladies.

The Easter service which was held in Union hall, East Convent, April 6, conducted by Rev. B. N. Stone of Fryeburg, was very impressive. The floral decorations were profuse. Mr. Stone preached there once in two weeks, and there is a large attendance from this and adjoining sections.

The church is being renovated inside and will look much newer when completed.

Rev. E. W. Pond contemplates having a cottage built this season, near lower Stone pond.

A brush fire up by lower Stone pond, a few days ago, was fanned into action by the wind and ran through the dry leaves, requiring prompt and speedy efforts to check it. It ran over quite a piece of ground before being extinguished.

We are sorry to hear that George Elliott of North Waterford is suffering from the effects of a slight paralytic shock. Mr. Elliott has worked for many years in the spool mill at Lyndebury and would be missed if not able to resume his labors.

Lewis Russell has an incubator and is hatching out a goodly number of chickens, this spring. Several of the neighbors have been in to see the incubator, as it is a curiosity to many who have never seen one before. There has been great improvement in the poultry business here within the past few years.

The grass is green and has a remarkable growth for the locality and season of year. Twenty-eight years ago it was very cold and backward here, and about the last week in April there was a big snow storm, nearly two feet of snow falling, and that spring people were out on runners the 24th of May. The ice did not leave Sawyer pond until the 12th day of May, and a heavy wind sent it moving and broke it to pieces.
